

## WhatsApp Security & Emergency Groups

If you wish to join your area group then please contact the relevant group leader as listed below: Please note:

- This WhatsApp Group messaging is STRICTLY for security and emergency messages. **No SOCIAL chatter ! Each group will have its own procedure regarding abuse of this rule but you risk being deleted with or without a warning!** Most areas have separate groups for social or non-security purposes.
- Please do **NOT** do a **group reply** to group messages for **courtesy or acknowledgement** unless this is requested. If you do wish to respond do not be lazy, please respond to the individual. If you don't have the contact details of the individual click/tap the group name at the top of the screen which should bring up "Group Info". Scroll right down. If the person is not in the displayed names select ".. more" . Click/tap the name and enter your message.
- PLEASE do not post messages or copy those from other groups claiming to be facts unless you can verify the contents. This led to a considerable waste of resources in the recent Knysna fires.
- Group Leaders are linked together so that in the event of a relevant emergency the whole village can be rapidly notified. Generally you should leave it to them to transfer messages between groups. If you are posting please check that the same message has not already been posted on the group.
- All groups are linked to W/O Bennie Boshoff of SAPS to ensure that he is immediately aware of problems.
- **If you are willing to act as administrator to set up a group in the areas currently not covered please contact WRRRA who will assist.**
